Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ____ MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

- 6) ☐ Other:

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. patent to Seeberger et al. in view of Yamashita. Seeberger discloses a door module (1, 3, 8, and 9) and method of assembling comprising of a pair of guide rails having a cable drive system (1), a door module mounting panel (3), an electrical wire harness attached thereto (8), and an electrical drive motor having control electronics (9). Seeberger fails to disclose the electrical drive motor and control electronics to be mounted within a housing. Yamashita discloses a door module having a cavity and cover which contains the electrical drive motor and control electronics. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Seeberger with a housing to contain the electric drive motor and control electronics as taught by Yamashita since a contained housing protects the motor drive and electronics from moisture thereby preventing rust or a short in the electronics.

The applicant's arguments have been considered but are not deemed persuasive. The applicant argues that there is no reason to combine the references because the motor of Seeberger is already on the "dry-side". The Examiner disagrees since covers protect motors from other elements such as dust and particles. Furthermore, simply having a motor on a "dry-side" does not

prevent the motor from coming into contact with moisture since it is well known that seals in the upper belt line of an automobile door cannot prevent all moisture from entering within the door.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Jerry Redman at telephone number 703-308-2120.
